Rustic Kraft Gift Tags

Twelve gift tags, in two versions. Print whichever suits the paper you have.

WHICH VERSION TO PRINT

Sheets 2 and 3 Kraft colour is printed, so use plain white cardstock.

Sheets 4 and 5 Outlines only, made to print onto real kraft brown cardstock.

The kraft sheets use far less ink and look closest to a real kraft tag.

HOW TO USE THEM

1. Print at 100%. Do not tick "fit to page" or the tags come out undersized.
2. Use 65 lb or heavier cardstock. Plain copy paper curls once you tie it on.
3. Cut along the grey dashed outline.
4. Punch the hole where the white circle is marked, using a standard 1/4 inch punch.
5. Thread with twine, jute or thin ribbon.

WHAT IS ON THE TAG SHEETS

First sheet Six "Merry Christmas" tags with To and From lines.

Second sheet Six tags: three with a greeting, three blank with writing lines.

A TIP

For a tag that looks genuinely old, print on cardstock, cut it out, then drag the cut edge lightly across a brown ink pad. It takes seconds and does more than any amount of distressing in software.
